Host a Babson Extern

Provide a student with the opportunity to job shadow.

What is an Externship?
An externship is a 1-3 day educational experience for a first or second year student. This unique opportunity allows students to shadow professionals in action and learn more about a particular industry and/or job function.

Why partner with us?
GIVING BACK - Connect to Babson and share your unique perspective with a current student.

TALENT ACQUISITION - Meet and identify future recruiting candidates early.

BRANDING - Students learn about your organization and share that experience with peers. This can be especially beneficial for smaller organizations that are looking to build a brand on campus.

When will the extern visit?
Externships generally take place over Winter Break or Spring Semester*. You and your extern will pick dates and times that work best for both of you.

*Spring externships primarily take place in the Greater Boston area (near Babson).

How to sign up?
Register to be a host by completing this short survey.
